Reiley Kidd, M. D.**

The abbreviation “nfn” is used to indicate that there was no first name.

If the word “surname” is indicated as if a first name, the reference is to a surname for which a member has an interest.

Slaves are found by looking under “slave” as if the last name.

Other persons with no last name identified (including some free persons of color) are found by looking under “nln” as if the last name.

A number in parentheses after a page number indicates that the name appears that number of times on that page.

The abbreviation “nnc” is used to indicate that the name (either first or last) was not clear or could not be determined in the given context.

Spellings of names have not been standardized or corrected. Be sure to look for all imaginable variations in name spellings as they occurred in older records!
